### *Card for Card The Greatest MMA Game of All Time*

#### **DESCRIPTION:**

Uncaged: World Fighters is a two player fighting card game designed to recreate the action from a real mixed martial arts fight. Represent your favourite fighting style with unique mechanics, fast paced action, and deep strategy. Use the starter pack straight out of the box, or build your own decks using combat technique cards from around the world!

Dominate your opponent by using a flurry of punch, kick, takedown, and submission cards to reduce your enemy's health to 0. Be careful though, a predictable strategy makes for an easy counter that can inflict harsh damage back at you!

#### **HISTORY:**

Uncaged was soft launched in 2018 through a grassroots booth tour of local gaming events. We used community feedback from this "Exhibition Version" of the game to continue iterating and designing expansions. We tabled our efforts in 2020 when COVID hit to focus completely on our digital products. But now we are excited to find a publishing partner that can help bring Uncaged to a full release.
